

Summary of ICCR Source Work Group Meeting
Teleconference - March 18, 1998
Stationary Combustion Turbine Work Group

The teleconference was organized by the US Environmental Protection Agency (EPA). A complete list of attendees, with their affiliations, is included as Attachment I. The agenda for the meeting is included as Attachment II.

Decisions/Discussion

- Consensus was reached on proceeding with the presentation of testing recommendations to the Coordinating Committee at the April meeting.
- Consensus was reached on presenting the MACT floor recommendation to the Coordinating Committee at the April meeting.
- Sims Roy told the group that the SCONOx unit at the Sunlaw Cogeneration Partners Federal cogeneration facility has been volunteered for testing. The CTWG discussed this prospect; issues were raised concerning the applicability of the technology to simple cycle turbines and the limited operating experience of the unit. No decisions were made concerning the testing of this unit.

Next Meeting

- The next Combustion Turbine Work Group Meeting will be a face-to-face meeting in Fort Collins, Colorado, on April 30, 1998.
- Items to be discussed during the next meeting include:
 - Issues raised at the Coordinating Committee meeting
 - Status reports on MACT floor, the test plan, and model plant development
 - Report on activities of the CC Pollution Prevention Subgroup
 - Discussion of the API/GRI test

Action Items

- Sims Roy will e-mail the revised test plan to CTWG members.
- The Detection Limit Task Group will meet by teleconference Friday, March 20, 1998, from 1-3 pm EST. Sims Roy will set up the call.
- Sims Roy will investigate the possibility of a CTWG tour of the facility with the SCONOx unit offered for testing during the July CTWG meeting.
- Derek Furstenwerth will send Sims Roy configuration information on the turbines that may potentially be volunteered for testing.
- Alpha-Gamma will distribute the latest draft of the P2 operator training guidance.

**Stationary Combustion Turbine Work Group Meeting
Teleconference - March 18, 1998
List of Attendees**

Sims Roy	EPA OAQPS Emissions Standards Division
Greg Adams	Los Angeles County Sanitation District
Sam Allen	Dow Chemical Company
Gordon Brown	Exxon Chemical Company
Derek Furstenwerth	Houston Lighting and Power Company
A.J. Cherian	PG&E Gas Transmission - Northwest
Peter Hill	US Naval Facilities Engineering Svc. Center
Diane McConkey	EPA OGC
Jerry Napierala	Solar Turbines
Valerie Overton	Eastern Research Group
Mervyn Soares	Texaco
Stan Coerr	Coerr Environmental
Dan Herndon	Alpha-Gamma Technologies
Keri Leach	Alpha-Gamma Technologies
Chuck Solt	Catalytica
Marc Phillips	Enron
Arnold Medberry	EPA
John Klein	ARCO Alaska, Inc.
Marvin Schorr	GE Power Systems Engineering Department
Glenn Acosta	Los Angeles County Sanitation District
Atly Brasher	Louisiana Department of Environmental Quality
Ted Guth	Permitting Regulatory Affairs Consultant

Tentative Agenda
Stationary Combustion Turbine Work Group
Work Group Teleconference Meeting
March 18, 1998, 1:00-3:00 PM
Call-In Number 919-541-4486

- Objectives*
1. *Update WG members on the progress of the Task Groups and work products*
 2. *Identify steps needed to achieve concurrence on the Test Plan, MACT Floor, and Gas Turbine Exclusion Recommendation and develop presentations to the CC at the April 1998 meeting*
- 5 min. Open Meeting and Review Agenda (S. Roy)
- 15 min. Review progress on test plan (S. Roy, Testing TG)
—Discuss status of revised test plan
—Identify steps needed to complete the plan and achieve concurrence
—Develop plan for preparing a presentation to the CC at the April meeting
- 15 min. Review progress on detection limits (C. Solt, S. Roy, others)
- 30 min. Review progress on proposed MACT floor (S. Roy, MACT TG)
—Discuss status of MACT floor for existing sources (recommended floor and rationale)
—Discuss and develop steps needed to reach consensus or closure on the floor
—Develop plan for preparing a presentation to the CC at the April meeting
—Get update on good operating practices review (M. Schorr)
- 20 min. Review progress on Gas Turbine Exclusion Recommendation (M. Schorr, Gas Turbine TG)
—Discuss status of proposed recommendation and rationale
—Identify steps needed to complete the package and achieve concurrence
—Develop plan for preparing a presentation to the CC at the April meeting
- 20 min. Review work of Model Plants TG (G. Brown, Alpha-Gamma, S. Roy, Model Plants TG)
—Report on progress made
—Discuss next steps
- 10 min. Report on progress of CC Pollution Prevention Subgroup (C. Solt)
- 10 min. Closing Business
—Discuss agenda for April 1998 WG Meeting (WG members)
—Review flash minutes (K. Leach/D. Herndon)
—Discuss whether meeting objectives were met (WG members)
